

# SOURCING

Before reading/viewing a Source  
ask yourself:

- **Who** wrote/made it? P.O.V. → **Bias**
- **When** was it written/made?  
(**Historical Context**)
- **Where** was it written/made?  
(**Geographic Context**)
- **Why** was it written/made?  
(**Purpose or Agenda**)
- **For whom** was it written/made?  
(**Audience**)
- Is it reliable? How?
- Is it useful? How?

\*All these questions/answers influence the creation of the source.
